Programme overview
The course is focused on the main international issues involving management activities in the business world. It mainly focuses on studies in the areas of management and business economics integrated with quantitative and juridical knowledge. Students will acquire the required interdisciplinary knowledge and ability to understand and implement the policies and strategies that firms are called on to put in place in an international environment.

The programme is particularly suitable for students who have earned a business or finance-related undergraduate degree and are now looking for a specialisation in the international management area. A double degree programme is available from the Faculty of Management at the University of Science and Technology of Cracow (Poland).

Minimal entry requirements
Admission will be granted to the candidates having a Bachelor’s degree that includes the following:
- 34 ECTS in the Business/Management area
- 24 ECTS in the Economic area
- 24 ECTS in the Juridical area
- 22 ECTS in the Mathematics/Statistics area

The course commission will evaluate the candidate’s curriculum for admission.

Language requirements
B1 in the European Common Framework of Reference for Languages is required. Candidates who have earned a degree taught in English or come from countries whose official language is English do not need a certificate of English language competence.

The University of Messina is one of the oldest, but with very modern equipment.

Martine Thyishmire
