Minimal entry requirements
The prospective students should have a Bachelor’s Degree in the following disciplines: Sciences of Education and Communication, Philosophy, Psychology, Computer Science, Social Sciences, Arts, Music and Drama or similar.

Programme overview
The Multidisciplinary Master’s Degree Programme in Cognitive Sciences and Theory of Communication has been designed to provide theoretical and applicative knowledge and skills in the traditional and emerging sectors of cognitive sciences: philosophy of mind, philosophy of language, phenomenology, linguistics, psychology, neuroscience and state-of-the-art information and communication technologies. The programme provides a preparation in the disciplines that contribute to define the field of cognitive sciences and communication, in particular philosophy of mind, psychology and language, phenomenology applied to the embodied cognitive sciences, cognitive psychology, neuroscience, computer science and artificial intelligence, philosophy and communication disciplines and new media sciences. The course is distinguished by its high qualitative profile and the outstanding scientific qualification of its teaching staff. Therefore, it offers you the possibility of carrying out your learning activities in an international and challenging environment where you can get the right inspiration you need for the achievement of your educational goals and the development of your professional career.

Language requirements
English B1 level based on the CEFR is required. Candidates who come from countries whose official language is English or whose Medium of Instruction was English do not need a certificate of English language competence.
